## **LONG EARS BUNNY PHOTO FRAME:**

A project which lets you print and frame your digital photos on Epson heavyweight, high quality photo paper, so that they keep for years.

### **WHAT YOU NEED:**

- A4 size - Epson Matte Paper Heavyweight or Archival Matte Paper
- Scissors
- *Optional:* Clear sticky tape (if using the hook)
- Epson Stylus Colour Printer
- A4 Lamination Pouch
- Laminating Machine

### **SAFETY PRECAUTIONS:**

- Scissors are sharp and can cause injury
- The laminating machine is hot to touch
- The laminating pouch is hot after it comes out of the laminating machine.

### **INSTRUCTIONS:**

1. Insert your digital photo in the frame as per instructions in the frame.
2. Print in colour on A4 Epson heavyweight photo paper. Allow ink to dry.
3. Cut out the frame.
4. Cut out the hook.
5. Place the frame and hook in a laminating pouch.
6. Laminate. Allow 1 minute to cool.
7. Cut out the frame. Allow 3-4 mm of laminate space around the frame.
8. *Optional:* Cut out hook. Use clear sticky tape to affix hook onto the top, back of the frame.
9. Display photo frame 😊
